

ALEX MORGAN

Machine Learning Engineer

Lyon, France | alex.morgan@example.com | github.com/alex-morgan-demo

(Fictional candidate created for demonstration purposes.)

PROFESSIONAL SUMMARY

Machine learning engineer with 6 years of experience building NLP and data products in Python. Hands-on with transformer models, semantic search and deploying models behind REST APIs. Comfortable working with product teams and explaining model results to non-technical stakeholders.

WORK EXPERIENCE

Machine Learning Engineer - Brightleaf Analytics, Lyon

Mar 2023 - Present

- Built a retrieval-augmented generation (RAG) assistant for customer-support agents using sentence embeddings, FAISS and an LLM API; reduced average ticket handling time by 18%.
- Fine-tuned BERT-based classifiers with PyTorch and Hugging Face Transformers to route 40,000 support tickets per month (macro F1 0.87).
- Exposed models through FastAPI services packaged with Docker and deployed on Google Cloud (Cloud Run).
- Set up offline evaluation datasets and weekly quality reports to monitor model drift.
- Mentored two junior data scientists and ran internal workshops on prompt engineering.

Data Scientist - Orbis Retail, Grenoble

Sep 2020 - Feb 2023

- Developed demand forecasting models (XGBoost, time series features) for 300 stores, improving forecast accuracy by 12%.
- Wrote ETL pipelines in Python and SQL on PostgreSQL; scheduled with Airflow.
- Built Tableau dashboards and presented insights to category managers every month.
- Ran A/B tests for pricing experiments in collaboration with marketing and finance teams.

EDUCATION

M.Sc. in Data Science - Université Grenoble Alpes

2018 - 2020

B.Sc. in Mathematics - Université de Lyon

2015 - 2018

SKILLS

Languages: Python, SQL, Bash

Machine learning: scikit-learn, PyTorch, Hugging Face Transformers, XGBoost, NLP, embeddings, RAG

Data: Pandas, NumPy, Airflow, PostgreSQL, Tableau

Engineering: FastAPI, Docker, Git, GitHub Actions, pytest, Linux

Cloud: Google Cloud Platform (Cloud Run, BigQuery)

CERTIFICATIONS

- Google Cloud Professional Machine Learning Engineer (2024)
- DeepLearning.AI - Natural Language Processing Specialization (2021)

LANGUAGES

French (native), English (fluent, C1)

PROJECTS

- Open-source CV parser: Python library that extracts skills from resumes with spaCy (300 GitHub stars).
